

Academic Program:

- **Focused Attention:** Excellent teacher-student ration (9:1) provides opportunity for one-on-one tutoring and open classroom atmosphere.
- **World-Class Facilities:** Use of the outstanding academic facilities at the White Mountain School. The academic portion of the program will be concentrated in the state-of-the-art new science building. See www.whitemountain.org for pictures and detailed information about classrooms, facilities, natural setting, and dorms.
- **Innovative Curriculum:** The academic program places emphasis on academic excellence with a focus on students developing good public speaking skills, team work, and use of technology in presentations.
- **Advanced Academic Courses include:** Honor Track; English Writing, Public Speaking and Debate; Leadership; Math (SAT, PSAT or ISEE); Politics and Economics, National Politics, Pre-Med Program and Pre-Laws Program.
- **Public Speaker Series:** University Professors in English and Poetry, College admissions officials, political and business leaders share their insights on what it takes to be a successful student in today's global economy.
- **Master Teachers:** Our teachers have high school and collegiate teaching experience, and a minimum of a master's degree. All have been recognized at the local, state and national level for their achievements in the classroom.
- **One-on-one college counseling:** Students will sit down and plan your curriculum and activities, and begin to explore what college or university will be a good fit for them, as well as what improvements students need to make to become more competitive candidates for college admissions.

Experiential Learning and Excursions:

American International Education Associates believes that students learn by doing, and there is no greater region in the world to spark imagination, curiosity and creativity than the beautiful setting of the White Mountain School in New Hampshire's White Mountain region. This setting provides spectacular views from classrooms, as well as excursions and trips to colleges, museums, national parks, films, and plays. Attractions may include but are not limited to:

- **Environmental Learning:** Classroom lessons will be supplemented by trips to the White Mountain Trail, The Basin, the beautiful Flume Gorge, and a team challenge on the Kancamagus Highway, and the Museum on American Weather.
- **College and University Visits:** Detailed tours of Middlebury College, the University of Vermont and St Michael's in nearby Vermont will showcase some of New England's best and diverse learning environments. Our international students will also tour nearby American college preparatory boarding schools.
- **Experiential Learning:** Trips that make learning fun include films, plays, a tour of the Franconia Notch State Park, as well as the Mount Washington Railway.

Our curriculum forces students to take initiative and solve problems while working with others --- perfect qualities for the global economy. Guest lecturers from college coaches, government officials and politicians, successful business leaders, and college professors help kids see what it takes to be a good leader.

Setting for Parent Vacations:

The White Mountain School also makes a beautiful setting for parents to take a vacation while their sons and daughters enhance their academics. Please inquire as to our partners in providing accommodations for parents.
